

Mobile Financial Services (MFS) Analytics is part of the Mobile Money solution. This solution provides up to date information to organizations, traders, entrepreneurs and interested mobile users regarding key financial markets and economic events.

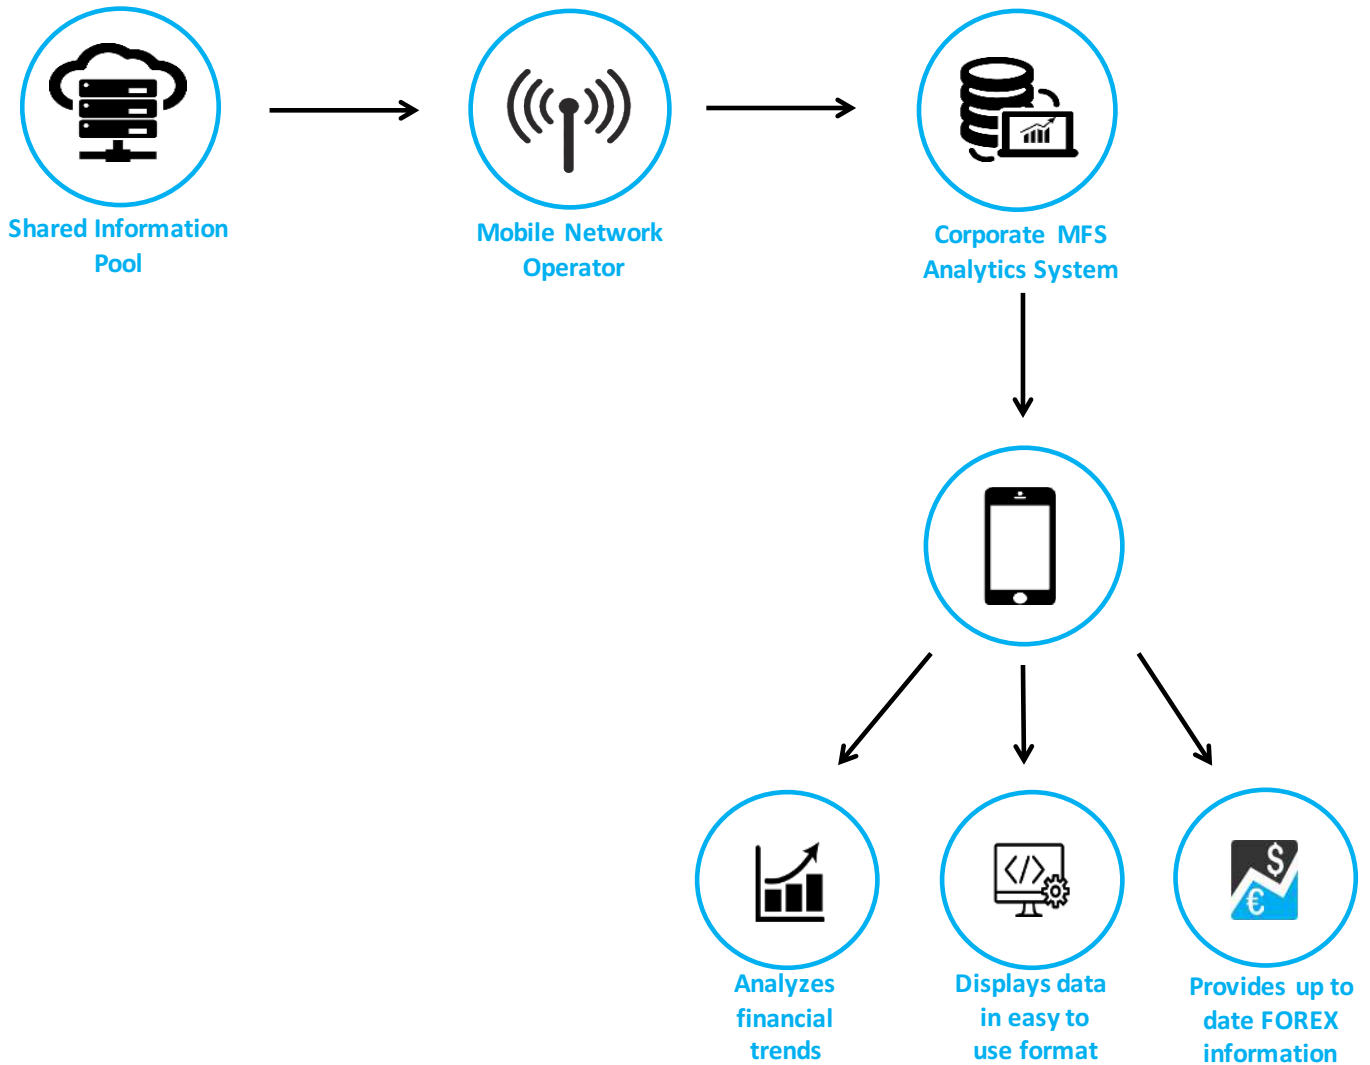

Key Features:

- ✓ Analyses financial trends and displays data in an easy to use format. Allows users to select the frequency with which results are made available.
- ✓ Displays the most important factual financial developments and their strategic significance.
- ✓ Provides up-to-date information on the FOREX market, interest rates and other economic events as they occur.

Benefits:

- ✓ Keeps the user informed and up to date with all the main financial events.
- ✓ Allows users to make informed financial decisions.

How it Works:
